Once you have completed all steps you will then have access to the CCEMTP Student materials.

Troubleshooting

Box is an external file sharing device to UMBC so we cannot reset your passwords or provide any technical assistance.

If you experience any difficulties or do not receive the email to join the folder, please notify your site coordinator at the course location host site.

IF you already have a Box account thru another entity you MAY need to utilize a different browser (chrome instead of IE or vice versa) as login credentials may be saved in your frequently used browser.

The email that received the invite is the only email that will be able to access the CCEMTP materials.
